

Zane Mohammad

University of Michigan, class of 2026, seven years of game development and programming experience, Art + Philosophy major, Computer Science Minor. Skilled in low-level programming, 3D modeling, and animation. Keen learner, self-motivated, and proactive.

Experience

Rising Blade

Jan, - Aug, 2021

A short narrative video game, where I showcased my proficiency in 3D modeling and animation, gameplay programming, music composition, and game design. This project was a solo endeavor, highlighting my diverse skills in multiple facets of game development.
